

Advanced Computer Networks – PCS223

Assignment 7

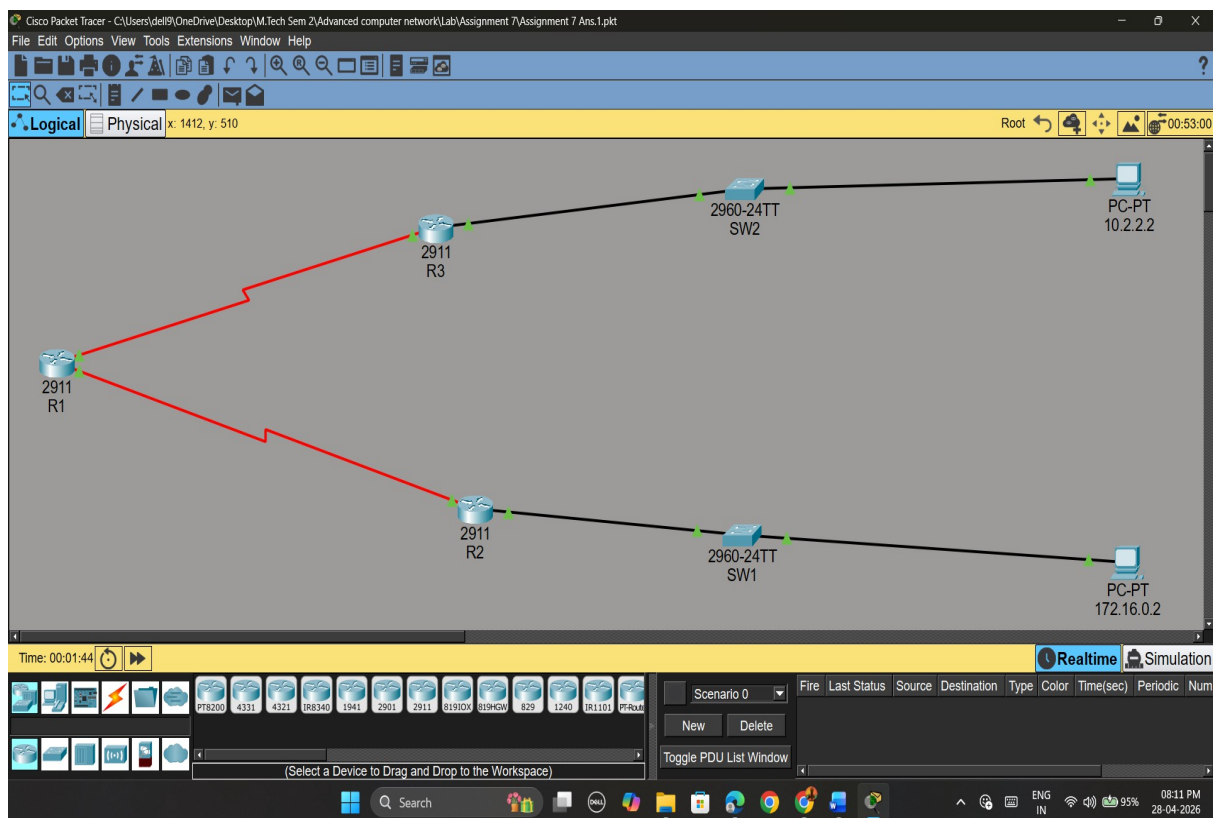

Name – Dhruv Garg

Subgroup – CS2

Roll No. – 8025320034

Design and implement the given network topology with three routers (R1, R2, R3), two LANs, and PCs.

In addition on to configuration on, analyze route selection on using OSPF cost and SPF algorithm.

Additional Analytical Task (NEW)

Fill the table:

Router	Destination	Path	Cost
R1	10.2.2.0	R1→R3	64
